AGENDA MEMORANDUM**

SUBJECT: Construction Contract: CC-2087-07/BHJ - Public Safety Building Hurricane Protection

DEPARTMENT: Administrative Services

DIVISION: Purchasing and Contracts

AUTHORIZED BY: Steve Howard

CONTACT: Bill Johnson

EXT:

MOTION/RECOMMENDATION:

Award CC-2087-07/BHJ in the amount of \$393,000.00 to T & G Corporation d/b/a T & G Constructors of Orlando, Florida for all labor, materials, equipment, transportation, coordination and incidentals necessary for the installation of window security/impact resistant film on all exterior windows, replacement of all overhead coiling doors and replacement of aluminum louvers to meet Miami-Dade hurricane impact requirements at the Public Safety Building located at 150 Bush Boulevard, Sanford, Florida 32773.

County-wide

Ray Hooper

BACKGROUND:

On April 12, 2005, the Board of County Commissioners approved submission of an application for a wind protection shuttering system to be installed on the Public Safety building. On June 13, 2006 the Board of County Commissioners approved the funding of the Hazard Mitigation – Wind Retrofit Grant Agreement where FEMA pays for 75% of the project and the County pays 25% of the project.

This project is funded from the Hazard Mitigation - Wind Retrofit Grant Program, which provides funding for projects designed to reduce or eliminate long-term risk to property from natural hazards.

Project cost \$393,000:

1. FEMA (75%) \$294,750
2. Seminole County Government (25%) \$98,250

Project will consist of the following:

- Install hurricane rated louvers
- Install hurricane rated roll-up doors
- Install safety and security film to all glass windows and doors

In addition FP&L (Florida Power & Light) offers a rebate of up to \$1 per sf for the installation of window film. The additional estimated savings from this rebate: 13,000 sf glass @ \$1 =

\$13,000.

CC-2087-07/BHJ will provide for all labor, materials, equipment, transportation, coordination and incidentals necessary for the installation of window security/impact resistant film on all exterior windows, replacement of all overhead coiling doors and replacement of aluminum louvers to meet Miami-Dade hurricane impact requirements at the Public Safety Building located at 150 Bush Boulevard, Sanford, Florida 32773.

The project was publicly advertised and the County received two (2) responses. The Review Committee, consisting of Chuck Lawson, Project Manager II; Rich Steiger, Project Manager I; and Scott Werley, Construction Manager, all of Facilities Management, reviewed the responses. Consideration was given to the bid price, qualifications and experience.

Contract award for the project is based on the low bid of Bid Item 1 (Base Bid). An Alternate Bid Item for electric motors for the overhead coiling doors was included on the Bid Form. The decision to include the Alternate Bid Item was determined by the project budget.

The Review Committee recommends award to the lowest priced, responsive, responsible bidder, T & G Corporation, d/b/a T & G Constructors, in the amount of \$393,000.00 which includes the alternate bid. The completion for this project is 90 Days for Substantial plus 30 Days to Final, for a total contract time of 120 calendar days from the issuance of the Notice to Proceed by the County. The backup documentation includes the Tabulation Sheet and the Bid Form.

This is a budgeted project and funds are available in the account line for Facilities Management Construction in Progress (010560.560650, CIP#00240601).

STAFF RECOMMENDATION:

Staff recommends the Board award CC-2087-07/BHJ in the amount of \$393,000.00 to T & G Corporation d/b/a T & G Constructors of Orlando, Florida for all labor, materials, equipment, transportation, coordination and incidentals necessary for the installation of window security/impact resistant film on all exterior windows, replacement of all overhead coiling doors and replacement of aluminum louvers to meet Miami-Dade hurricane impact requirements at the Public Safety Building located at 150 Bush Boulevard, Sanford, Florida 32773.

purpose. To that end, CONTRACTOR agrees to respond to citizen complaints, related to alleged damage caused by CONTRACTOR's performance of the Work, within ten (10) days of receipt of the complaint from any citizen, ENGINEER, or COUNTY. CONTRACTOR shall utilize the attached "Report of Unsatisfactory Materials and/or Service" form to respond separately to each complaint. When a complaint is brought to CONTRACTOR by a citizen, CONTRACTOR shall identify the citizen and street address in the "Statement of Problem". Responses and action taken by CONTRACTOR shall specifically identify the problem and specific actions taken. Generic statements such as "addressed the problem" are unacceptable.
