BACKGROUND:

On June 23, 2009, the Board adopted a Resolution authorizing creation of a 2010 U.S. Census Complete Count Committee (the "Committee"). The Resolution calls for the Board to appoint a chairperson to the Committee and members to serve on the five (5) Committee Interest Groups.

The Committee will consist of volunteers from the community responsible for creating and implementing a "Census Awareness Strategy Plan" in support of the 2010 U.S. Census that will create awareness, achieve broad participation, and improve the response rate of the 2010 Decennial Census. The Committee will remain active until September 20, 2010.

Attached is a list of candidates for consideration by the Board for appointment to serve on the Committee. Staff assembled this list from the County's Appointment Information Form, names provided by the Seminole County Regional Chamber of Commerce, from interested representatives of County municipalities, the East Central Florida Regional Planning Council, and School Board.

Following the August 25, 2009 BCC meeting, correspondence was sent to the remaining cities and the Chamber of Commerce requesting additional names be submitted for the committee. The list of candidates will be updated and copies of the applications will be distributed to the Commission offices prior to the Board meeting. The candidates have been contacted to let them know the current status of the process.

STAFF RECOMMENDATION:

Staff recommends that the Board appoint members to serve on the Complete Count Committee in one of the five (5) Committee Interest Groups, and appoint a Chairman to the Complete Count Committee, with staff findings.

Seminole County Regional Chamber of Commerce
1055 AAA Drive, Suite 153
Heathrow, Florida 32746

Subject: 2010 U.S. Census Complete Count Committee

Dear Mr. Ashworth: *John*

As you may know, the Board of County Commissioners recently authorized creation of a Census "Complete Count Committee". The Committee will consist of volunteers from the community representing educational-governmental based groups, faith-based groups, business-industry groups, community and ethnic-cultural based groups, and recruiting for Census activities. The Committee will be instrumental in raising awareness of the 2010 Census, increasing the accuracy of population data, and increasing the mail-back response rate.

On August 25, the Board continued selection of Committee members citing a need for additional representation from the business community to serve on the Committee.

In view of the Board's action, I am requesting your recommendation from among Chamber members of four (4) additional persons to serve on the Committee. The term of service on the Committee is from September 2009 through September 2010. For your information, I have attached the Roles and Responsibilities of the Complete Count Committee. The Board will reconsider selection of Committee members at its regular meeting on September 22, 2009.

The County's contact regarding these matters is Tony Matthews, Principal Planner, Seminole County Planning Division, at the address below, or by telephone at 407-665-7936; FAX at 407-665-7385; or email to tmatthews@seminolecountyfl.gov.

Thank you for your assistance in this effort. I also want to say thanks for Jo Alaniz from your office who has been very helpful in getting the word out to your membership regarding the Committee.

2010 U.S. Decennial Census Complete Count Committee

Roles and Responsibilities

What is a Complete Count Committee?

- To increase the response rate, and to ensure an accurate and efficient Census count in 2010, the Census Bureau is encouraging local government partnership opportunities via creation of “Complete Count Committees” (**CCC**). A **CCC** is a *volunteer committee* that:
 - Consists of community leaders who represent faith-based groups, schools, businesses, governments, cultural-ethnic groups, and media, etc.;
 - Is responsible for creating awareness and improved return rate to the 2010 Census;
 - Will prepare and implement a Census Awareness Strategy Plan;
 - May seek donations from interested parties to support **CCC** efforts; and
 - Remain active through September 30, 2010.

Why is a Complete Count Committee Important?

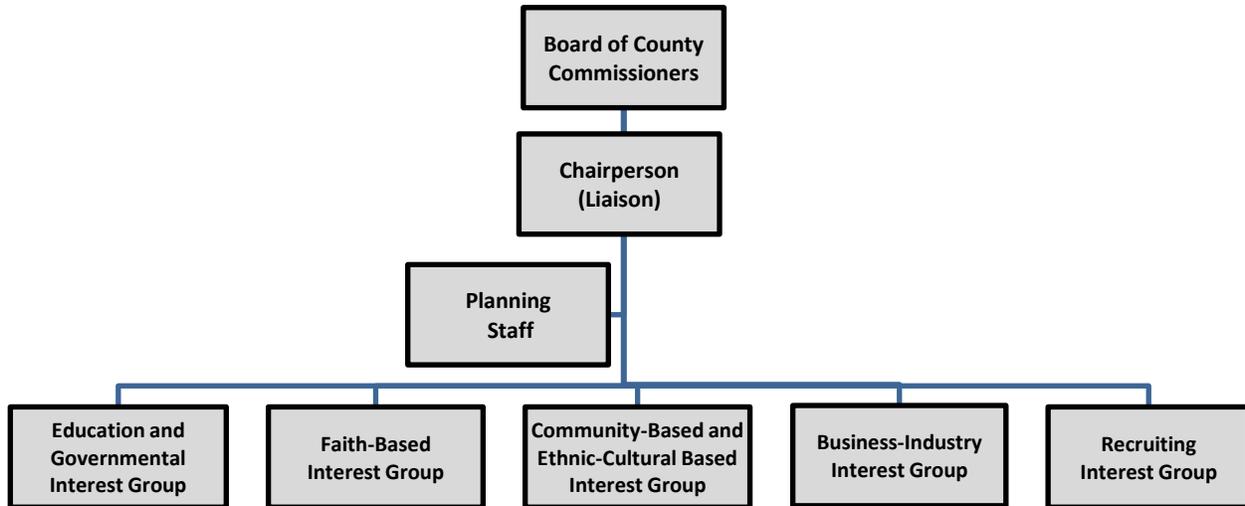

- **CCCs** serve an essential role in increasing the response rate to questionnaires by creating awareness of the Census. Ensuring an accurate and complete Census count is vital as population numbers directly relate to:
 - Maintaining or increasing eligibility for a number of federal and state grant programs that are based on population counts, such as neighborhood improvements, public health, education, transportation, and planning, etc.;
 - Representation in the U.S. House of Representatives; additional representation at the federal, state, and local levels; and provide data for redrawing of state legislative districts;
 - Numerous important data about Seminole County essential to many planning and development related decisions;
 - Eligibility for status as a “dense urban area” under Chapter 163, Florida Statutes (Growth Management Act) provisions adopted during the 2009 Legislative session; and
 - Enabling Central Florida to qualify for additional representation in the U.S. House of Representatives; additional representation at the federal, state, and local levels; and provide data for redrawing of state legislative districts.

What are Some Highlights of the 2010 Census?

- Article I, Section 2 of the U.S. Constitution mandates a census every 10 years of the population of the United States. The U.S. Census Bureau will conduct the next decennial census on April 1, 2010. Key dates include:
 - **Fall 2009** - Census Bureau begins recruitment for Census takers
 - **February-March 2010** - Census questionnaires mailed or delivered to households
 - **APRIL 1, 2010 - CENSUS DAY**
 - **April-July 2010** - Census takers visit households that did not return questionnaire by mail
 - **July-September 2010** - **CCC** completes its responsibilities
 - **December 31, 2010** - Census Bureau submits state population totals to the President of the United States

Note:* In 2000, the County achieved a 70% Census Response Rate; **CCC efforts should result in an increased response rate in 2010.

Complete Count Committee Interest Groups

- **Education and Governmental Interest Group** - Facilitates Census awareness for local schools from prekindergarten through twelfth grade, as well as postsecondary education institutions in the area. May also encourage school administrators, teachers, and students to use “Census in Schools” materials; assists in all activities between the Census Bureau and the local government, such as participation in Decennial Census geography programs, free space for Questionnaire Assistance Centers, and identifying other resources for **CCC** activities.
- **Faith-Based Interest Group** - Creates and coordinates activities and materials that can be used by any local faith-based institution in the promotion of Census awareness and participation.
- **Community-Based and Cultural-Ethnic Based Interest Group** - Collaborates with community organizations to inform residents of the importance of participating in the Census and the benefits derived from Census data; outreaches to minorities, non-English speaking residents, the homeless, and senior adults to encourage awareness of and participation in the 2010 Census.
- **Business and Industry Interest Group** - Creates and coordinates activities that involve businesses in Census awareness, such as distribution of Census information and messages on packaging, and the inclusion of the Census logo and message on sales promotion materials.
- **Recruiting Interest Group** - Disseminates information about Census job openings for the 2010 Census. Information will include the number of jobs available, types of jobs available, and the locations of testing and training sites.
