**SEMINOLE COUNTY GOVERNMENT  
AGENDA MEMORANDUM**

**SUBJECT:** MSBU - Lake Myrtle Restoration MSBU Ordinance

**DEPARTMENT:** Fiscal Services

**DIVISION:** MSBU

**AUTHORIZED BY:** Lisa Spriggs

**CONTACT:** Kathy Moore

**EXT:** 7179

**MOTION/RECOMMENDATION:**

Approve and authorize the Chairman to execute an ordinance establishing Lake Myrtle Restoration MSBU.

District 4 Carlton D. Henley

Kathy Moore

---

**BACKGROUND:**

Property owners have expressed a desire to create an MSBU for lake restoration at the southern cove of Lake Myrtle. The scope of service for the proposed restoration has been formalized through on-going interactions involving the County's Lake Management Program, the MSBU Program, the lake front property owners and representation from various state agencies. The Petition for Improvement, whereby the property owners requested the creation of this MSBU, demonstrated a 77% support rate [20 in favor, 2 opposed; 4 no response].

The improvement to be provided via MSBU funding is detailed in the Ordinance document and includes removal of detrimental vegetation and sediment in the southern most cove of the lake, the creation of wildlife refuge spoil islands, herbicide treatment of targeted restoration zone, and replanting of native aquatic vegetation followed by on-going aquatic weed control maintenance via the "Friends of Lake Myrtle, Inc."

The ordinance sets forth the necessary provisions to establish the requested restoration in a manner in which all applicable waterfront parcel owners share equally in the cost of the improvement project. There are twenty-nine waterfront parcels included in the boundaries of the MSBU. Per Department of Revenue [DOR] classification, 3 are government (2 County owned and 1 owned by the City of Longwood) and twenty-six are residential. As per statutory guidelines, the government based parcels will be excluded from assessment allocation.

The estimated cost per residential parcel is \$3,665.00, with provisions not to exceed \$3,800.00 without prior consent of 65% or more of the benefiting properties. The final cost per parcel will be determined after completion of the project. To enhance the affordability of the project, term financing will be offered. The estimated annual per parcel assessment with 10-year financing is \$475.00.

Creation of this MSBU will necessitate contract management, performance monitoring through site evaluation, and preparation/processing of assessments for collection on an installment basis. It is anticipated that all required support activities can be handled internal to the County with assistance from existing resources within the Lake Management Program of the Public

Works Department's Roads-Stormwater Division and the MSBU Program of the Fiscal Services Department. The restoration work will be accomplished through contracted services. The full scope of the projects is anticipated to take place over a one year period from the time the project commences. The administrative fee to be collected will supplement resource allocation requirements. The Lake Management Program, consistent with program and budgetary guidelines is designating up to \$25,000 in support of the restoration project.

If the requested MSBU is approved by the Board, the restoration work will begin immediately (weather/conditions permitting) with the budgeted funds to be encumbered within the current fiscal year and carried forward to next fiscal year.

**STAFF RECOMMENDATION:**

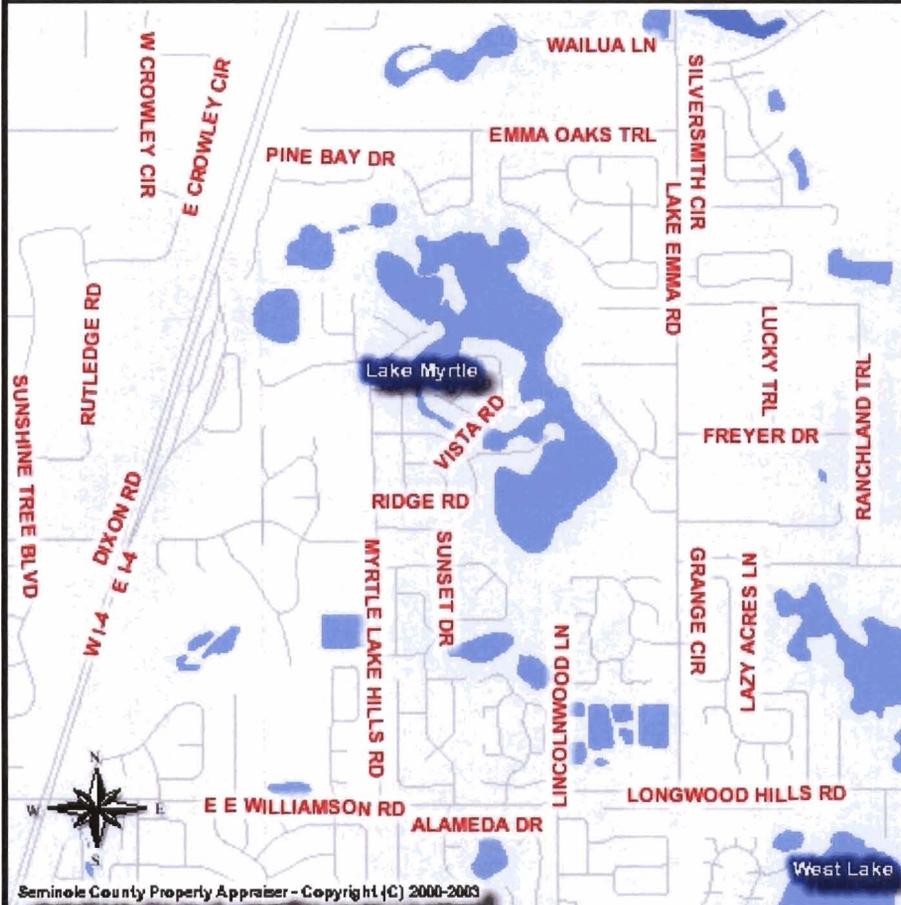

Staff recommends the Board approve and authorize the Chairman to execute an ordinance establishing the Lake Myrtle Restoration MSBU.

**ATTACHMENTS:**

## ECONOMIC IMPACT STATEMENT

**DATE:** September 25, 2007

**DEPT./DIVISION:** Fiscal Services/MSBU Program

**CONTACT PERSON:** Kathy Moore

**EXTENSION:** 7179

**DESCRIBE PROJECT/PROPOSAL:** Creating the LAKE MYRTLE RESTORATION MUNICIPAL SERVICES BENEFITS UNIT for the purpose of improving the water quality and lake condition via the removal of detrimental vegetation and sediment in the southern most cove of the lake, the creation of wildlife refuge spoil islands, and herbicide treatment for a period of twelve months within the targeted restoration zone/islands.

**DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/ PROPOSAL UPON THE OPERATION OF THE COUNTY:** Creation of this MSBU will necessitate contract management, performance monitoring through site evaluation, and preparation/processing of assessments for collection on an installment basis. It is anticipated that all required support activities can be handled internal to the county with assistance from existing resources within the Lake Management Program of the Public Works Department's Roads-Stormwater Division and the MSBU Program of the Fiscal Services Department. The full scope of the projects is anticipated to take place over a one year period from the time the project commences. The operating impact to both Departments over the span of this project is anticipated to be in the range of 40 to 60 hours. For subsequent years, minimal impact (less than 10 hours annually) is anticipated in follow-up support. The administrative fee to be collected will cover resource allocation requirements. The Lake Management Program, as consistent with program and budgetary guidelines is designating up to \$25,000 in support of the restoration project.

**DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/ PROPOSAL UPON THE PROPERTY OWNERS/TAX PAYERS/CITIZENS WHO ARE EXPECTED TO BE AFFECTED:** The ordinance will set forth the necessary provisions to establish the requested restoration of Lake Myrtle in a manner in which all applicable waterfront parcel owners share equally in the cost of the defined restoration project. There are twenty-nine waterfront parcels included in the boundaries of the MSBU. Per Department of Revenue classification 3 are government agencies and twenty-six are residential. As per statutory guidelines, the government based parcels will be excluded from assessment allocation. The estimated cost per residential parcel is \$3,665.00, with provisions not to exceed \$3,800.00 without prior consent of 65% or more of the benefiting properties. The final cost per parcel will be determined after completion of the project. To enhance the affordability of the project, financing is anticipated. The estimated annual per parcel assessment with 10-year financing is \$475.00.

**IDENTIFY ANY POTENTIAL INDIRECT ECONOMIC IMPACTS, POSITIVE OR NEGATIVE WHICH MIGHT OCCUR AS A RESULT OF THE PROJECT PROPOSAL:** Positive impacts are realized in terms of improved water quality, increased use of the lake, and improved lake conditions.

ORDINANCE

AN ORDINANCE CREATING THE LAKE MYRTLE RESTORATION MUNICIPAL SERVICES BENEFIT UNIT TO BE CREATED FOR THE PURPOSE OF IMPROVING WATER QUALITY AND LAKE CONDITIONS FOR THE SOUTHERN MOST COVE OF LAKE MYRTLE; PROVIDING IDENTIFICATION OF PROPERTY INCLUDED IN SAID UNIT; PROVIDING FOR THE GOVERNING OF SAID UNIT BY THE BOARD OF COUNTY COMMISSIONERS; PROVIDING THE ASSESSMENT FORMULA; PROVIDING A LIST OF ESTIMATED ANNUAL ASSESSMENTS FOR ASSESSMENT AND COLLECTION BY THE UNIFORM METHOD PURSUANT TO SECTION 197.3632, FLORIDA STATUTES; PROVIDING FOR SEVERABILITY, INCLUSION IN CHAPTER 160, SEMINOLE COUNTY CODE, AND AN EFFECTIVE DATE

WHEREAS, the Board of County Commissioners of Seminole County, Florida has the authority to establish a Municipal Services Benefits Unit pursuant to Chapter 125, Florida Statutes; and

WHEREAS, the Board of County Commissioners has adopted administrative procedures for the establishment of Municipal Services Benefits Units, and the proposed LAKE MYRTLE RESTORATION MUNICIPAL SERVICES BENEFITS UNIT will be administered under the criteria as established by the Board of County Commissioners for said Municipal Services Benefits Units; and

WHEREAS, the benefiting property owners have expressed a desire to create an MSBU for lake restoration at the southern cove of Lake Myrtle according to the scope of service developed through on-going interactions involving the County's Lake Management Program, the MSBU Program, the lake front

property owners and representation from various state agencies; and

**Whereas,** the project by definition is to include the removal and relocation of detrimental vegetation and sediment, the creation of wildlife refuge spoil islands using the removed vegetation and sediment, subsequent herbicide treatment of the targeted restoration area for twelve months in conjunction with the establishment of the referenced wildlife refuge islands, the replanting of beneficial native plants along the shoreline utilizing volunteer labor provided by lakefront property owners under the directions of County biologists, and on-going aquatic weed control maintenance being provided through private funding via the "Friends of Myrtle Lake, Inc." which is a resident managed lake management association; and

**Whereas,** the establishment of wildlife refuge spoil island has been requested by the property owners as an affordable alternative to relocation of the removed materials to an offsite disposal location; and

**Whereas,** the natural decay and material consolidation, and compacting cycles have been presented, explained, and reviewed with the lake front property owners; and

**Whereas,** the establishment of wildlife refuge spoil islands is authorized per state agency directives; and

**Whereas,** the property owners have been advised that the implementation and completion of the Lake Myrtle improvement

project is conditional on the Lake Myrtle water level being at an elevation that will provide suitable entrance and egress of the required equipment, and that if the water level exceeds the workable level, the project will be postponed until conditions are more favorable.

**WHEREAS**, an Economic Impact Statement has been prepared and is available for public review in accordance with the provisions set forth in the Seminole County Home Rule Charter; and

**Whereas**, the Board of County Commissioners has approved the hereinafter described project;

**NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF SEMINOLE COUNTY, FLORIDA:**

**Section 1. SHORT TITLE.** This Ordinance shall be known and referred to as the Lake Myrtle Restoration Municipal Services Benefit Unit Ordinance.

**Section 2. CREATING UNIT; IMPROVEMENTS** There is hereby created within Seminole County, the Lake Myrtle Restoration Municipal Services Benefit Unit for the purpose of providing improved water quality and lake conditions in the southern most cove of the lake according to the project scope detailed in Exhibit A, which is inclusive of the removal and relocation of detrimental vegetation and sediment, the creation of wildlife refuge spoil islands using the removed vegetation and sediment, subsequent herbicide treatment of the

targeted restoration zone for twelve consecutive months in conjunction with the establishment of the referenced wildlife refuge islands, the replanting of beneficial natives along the shoreline utilizing volunteer labor provided by the lakefront property owners, and on-going aquatic weed control maintenance being provided through private funding via the "Friends of Myrtle Lake" association. Said unit shall encompass the project as detailed in Exhibit A, the cost projections and funding as outlined in Exhibit B. The properties listed in Exhibit C which are located within unincorporated Seminole County, Florida shall be included within said unit.

The MSBU Program working in conjunction with the Seminole County Lake Management Program of the Public Works Department's Roads-Stormwater Division will select the service provider(s) according to established contractual provisions. The Seminole County Lake Management Program will schedule interactions with the contracted service provider(s) to monitor contracted activities.

**Section 3. POWERS AND DUTIES OF BOARD.** The unit shall be governed by the Board of County Commissioners of Seminole County, Florida, which board shall have the following powers and duties:

(a) To provide for the collection and disbursement by the County of such funds as may be necessary to pay the expenses for lake restoration activities within the unit.

(b) To provide for or contract for lake restoration activities as set forth in Section 2.

(c) To levy non-ad valorem assessments upon property abutting, adjoining and contiguous to such lake restoration areas when such property is specially benefited by such lake restoration activities.

(d) To levy non-ad valorem assessments upon any property which is specially benefited and/or abuts, adjoins and is contiguous to such lake restoration activities, but which may have been omitted from the hereinafter described assessment listing, upon giving sufficient notice to the owners of such property and holding a public hearing to consider any comments, objections or other relevant information to arrive at such decision to levy such non-ad valorem assessments.

(e) To provide the funding and financing through MSBU Program funds as budgeted and designated for establishing such improvements authorized by the administrative procedures for Municipal Services Benefits Units.

**Section 4.     INTEREST AND ADMINISTRATIVE COSTS.**     All property owners desiring to pay in ten annual installments will be assessed interest at a projected rate of approximately five and 50/100 percent (5.5%). All property owners will be assessed administrative costs, as promulgated under the Municipal Services Benefit Unit procedures, and per cost projection detailed in Exhibit B.

**Section 5. ASSESSMENT FORMULA.** The assessment formula used to determine the amount to be assessed to each eligible property specially benefited from the lake restoration is one (1) benefit unit per parcel. Said special assessments shall constitute a lien upon the lands assessed. Pending collection by the County of such special assessments, as provided herein, the County may spend from its Municipal Services Benefit Unit Fund such sums as may be necessary to complete the restoration project, and the County will be reimbursed to such extent at such time assessments are collected.

**Section 6. LIST OF ASSESSMENTS.** The affected properties are listed in Exhibit C. The estimated cost per parcel is \$3,665.00 as listed in Exhibit B with provisions not to exceed \$3,800.00 without petitioned property owner support of 65% or greater. Final assessment will be determined according to actual cost of the project and will be reviewed for Board approval at a public hearing following the completion of the removal and excavating phase of the project whereby the wildlife spoil islands are created and monthly herbicide treatments have been contracted.

**Section 7. METHOD OF ASSESSMENT AND COLLECTION.** All non-ad valorem assessments which may result as herein provided for in Exhibits B, Exhibit C and Section 6 shall be assessed and collected by the uniform method adopted by the Seminole County Board of County Commissioners, pursuant to Section 197.3632, Florida Statutes.

Section 8. SEVERABILITY. If any provision of this Ordinance or the application thereof to any person or circumstance is held invalid, it is the intent of the Board of County Commissioners that the invalidity shall not affect other provisions or applications of this Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are declared severable.

Section 9. INCLUSION IN CODE. It is the intention of the Board of County Commissioners that the provisions of this Ordinance shall become and be made a part of the Seminole County Code and the word "ordinance" may be changed to "section", "article" or other appropriate word or phrase and the sections of this Ordinance may be renumbered or relettered to accomplish such intention; providing, however, that Sections 8, 9 and 10 shall not be codified.

Section 10. EFFECTIVE DATE. This Ordinance shall take effect upon receipt of official acknowledgment by the Clerk of the Board of County Commissioners from the Department of State that this Ordinance has been filed with the Department of State.

ENACTED this 25th day of September, 2007.

BOARD OF COUNTY COMMISSIONERS  
SEMINOLE COUNTY, FLORIDA

By: \_\_\_\_\_  
Carlton D. Henley, Chairman

## Exhibit A

### Lake Myrtle Restoration MSBU Project Scope

The lake restoration improvements for Lake Myrtle will include:

- 1) Removal/relocation of related sediment via mechanical means,
- 2) Clear cutting and removal of vegetation via mechanical means,
- 3) Establishing several wildlife refuge spoil islands utilizing the vegetation and sediment removed from designated improvement areas and per guidelines for such islands,
- 4) Herbicide treatment for a 12-month period in conjunction with the creation of wildlife refuge spoil islands,
- 5) Replanting of beneficial native plants along the shoreline as per the directives of a County biologist, and utilizing volunteer labor provided by the lakefront property owners.

The wildlife refuge spoil islands will be located on parcel 25-20-29-501-0L01-0000 which is owned by Seminole County BCC and is classified "river/lake/submerged". The requested lake restoration improvements funded through the MSBU will not include an on-going aquatic weed control maintenance after the initial 12-month period noted in (4) above is completed. The aquatic weed control after this 12 month period will be provided by the "Friends of Myrtle Lake, Inc.", a community association specifically established for the purpose of maintaining the lake. The improvement plan details, as discussed with and provided to the benefiting properties are further defined in Exhibits A1 and A2.

## Exhibit A-1

### Lake Myrtle Restoration MSBU Project Specifics

The lake restoration project scope includes removing and/or excavating organic matter up to a depth of two feet within the approximated nine acres in the south cove of Lake Myrtle. This organic matter is to be scrapped and moved to two locations in Lake Myrtle for the creation of wildlife spoil islands pursuant of the aquatic plant permit conditions provided by the Florida Department of Environmental Protection Bureau of Invasive Plant Management. The areas to be excavated and the approximate location of the proposed wildlife spoil islands are identified on the map identified as Exhibit A-2.

Wildlife spoil island 1, located off the southern side of Twin Lakes Road (from cul-de-sac to 1015 Twin Lakes Road), is not to exceed a height greater than the elevation of the road. Wildlife spoil 2 is approximated to be 200 feet by 200 feet by 20 feet tall. Upon consolidation of these spoils, installation of beneficial native plants at the base (such as pickerel weed and duck potato) and trees (such as cypress and bay) shall be installed. These plantings will be included in the project to facilitate greater stabilization and utilization by waterfowl.

For areas outside of the excavation boundary, vegetation will be mowed/mulched using equipment with a front-end blade. The areas to be mowed/mulched are identified on the map identified as Exhibit A-2. The acreage amount associated with this portion of the scope is dependent on equipment capabilities. This restriction is based upon organic matter that is greater than four feet in depth in which equipment is unable to operate. Property owners affected by this restriction were personally advised on August 15<sup>th</sup> and are located at: 1830 Lake Emma Road, 1840 Lake Emma Road and 1500 Lincolnwood Lane.

Upon completion of the excavation phase, the project will include a twelve month herbicide contract. The herbicide treatment will include approximately twenty acres of the south cove of Lake Myrtle. Thereafter, responsibility of maintaining an herbicide contract at the appropriate frequency will be conducted through the Friends of Myrtle Lake, INC. (a resident managed lake association).

The project will include the introduction/planting of native plant material as required by aquatic plant permit conditions issued by the Florida Department of Environmental Protection

Bureau of Invasive Plant Management. These plants must be installed by the lakefront property owners and/or volunteers with the assistance of County biologists. Replanted areas are to be located along the lake shoreline.

General factors that may arise during the excavation phase includes temporary odors, visual decay of vegetation and transition to the establishment of beneficial native plants and any unforeseen circumstances.

This project is conditional on weather as water elevation will greatly reduce scope of restoration. Should water elevation exceed the criteria needed for excavation equipment, project will be postponed until conditions are more favorable.

## Exhibit B

### Lake Myrtle Restoration MSBU Estimated Project Cost & Funding

#### Estimated Cost of Improvement Funded by the MSBU:

Vegetation and sediment removal	\$ 85,500.00
Contingency Fee (10%)	\$ 8,550.00
Administrative Fee	<u>\$ 1,200.00</u>

**Total Estimated Expense Funded by the MSBU: \$ 95,250.00\***

(\*with provisions not to exceed \$98,800.00)

#### Estimated Total Cost Per Property:

The estimated assessment per parcel is \$3,665.00 if paid at time of project completion. The Ordinance includes provisions whereby the assessment per property shall not exceed \$3,800.00 unless so supported by 65% of the benefiting owners through a petition process.

The estimated per parcel annual installment assessment to be included on the property tax bill based on the estimated cost of \$3,665.00 per parcel with a recommended 10-year term at an interest rate of 5.5% will be approximately \$475.00. The final installment assessment will be dependent on actual project costs and financing terms authorized the by Board of County Commissioners.

#### Additional Cost of Improvements Funded by the Public Works Department's Roads-Stormwater Division:

Herbicide treatment for a 12-month period in conjunction with the establishment of the wildlife refuge spoil islands and replanting of beneficial native plants:

\$ 25,000.00

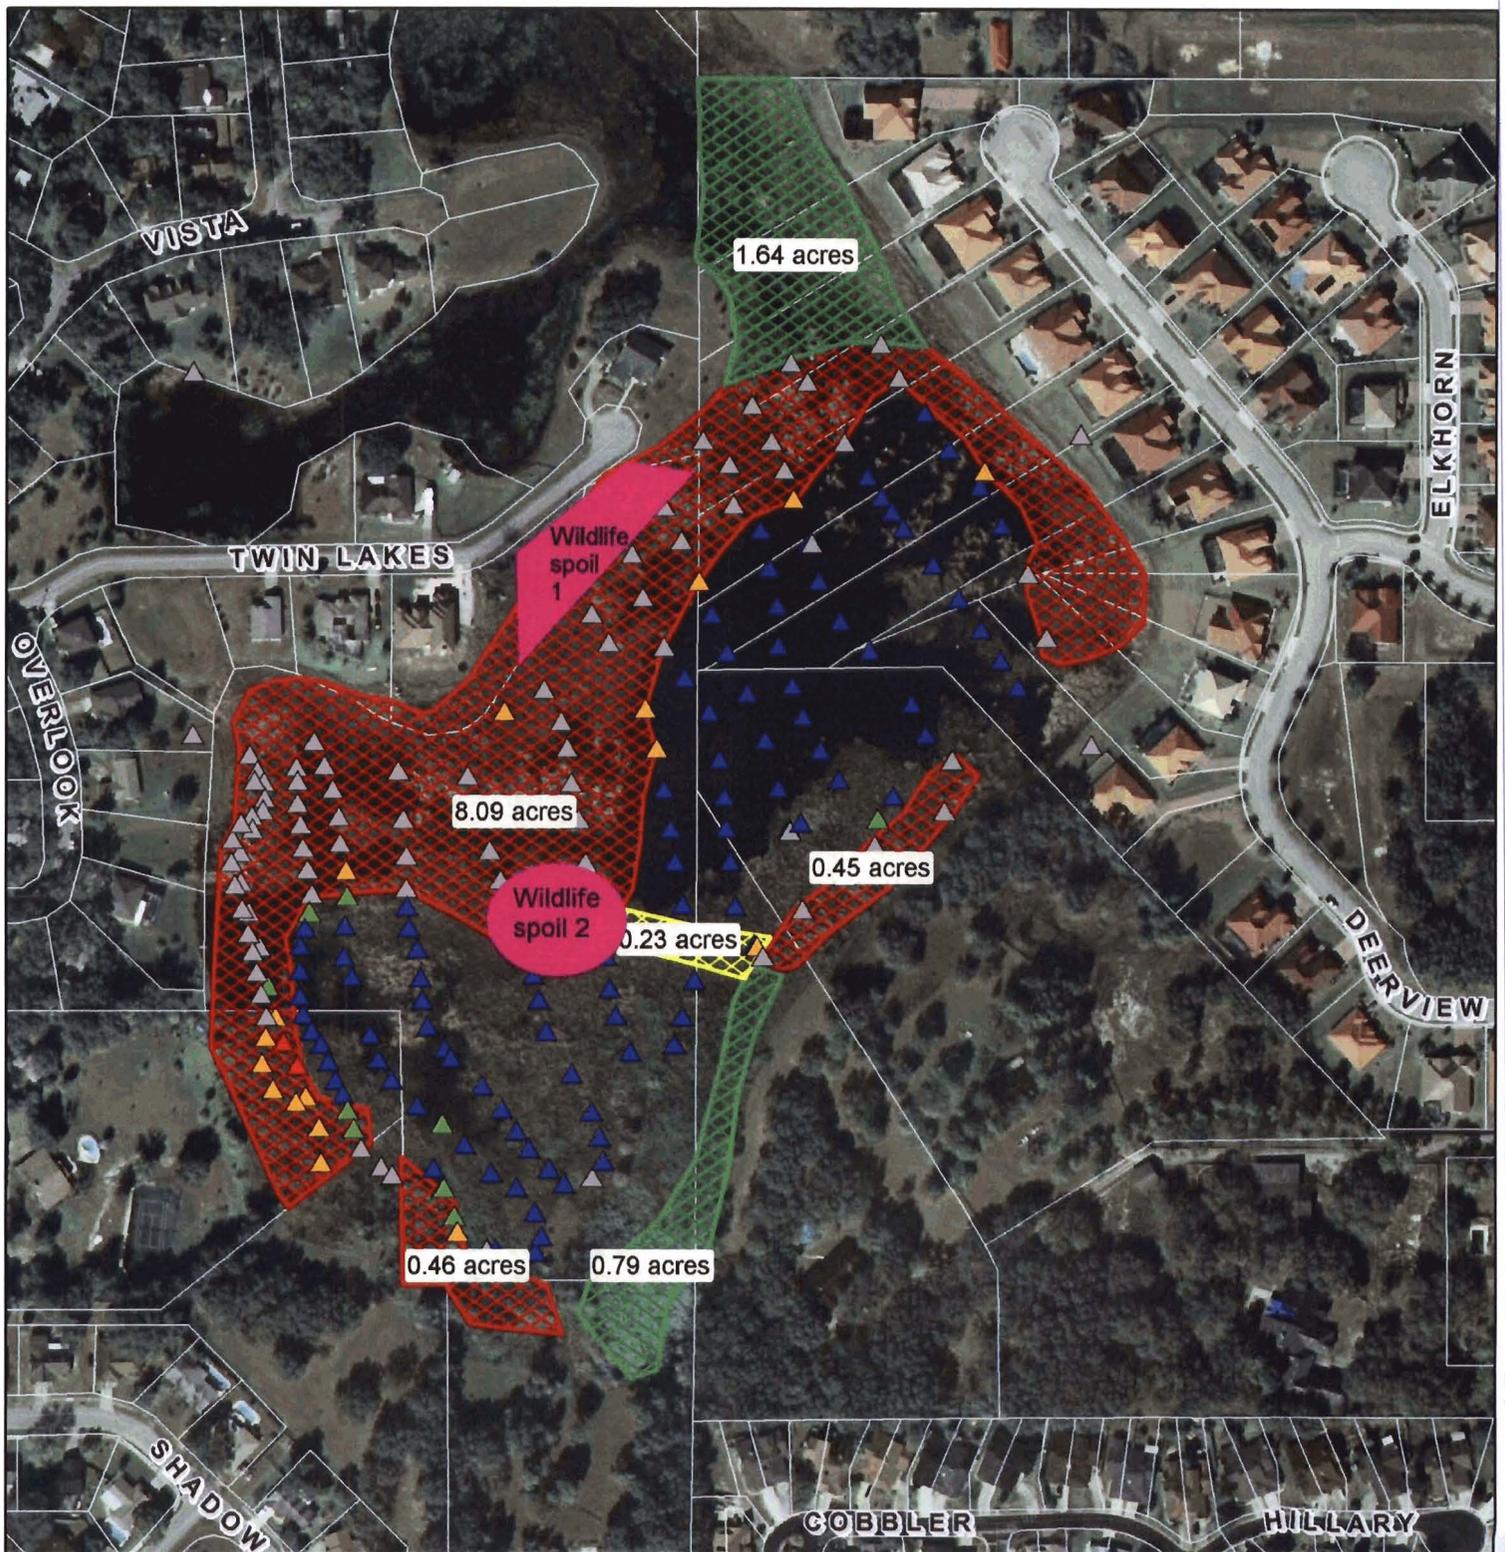

**Estimated Total Expense For Project: \$120,250.00**
